

~~CONFIDENTIAL~~

MEMORANDUM FOR: Chief, Information Review Staff, DD/A

SUBJECT : Security Classification Review of
"Where's What"--Source of Information
for Federal Investigators

REFERENCE : Letter dtd 4 Oct 74 for Capt. J. H.
Conrad, U. S. Coast Guard from [REDACTED]
[REDACTED] RMO, regarding same subject

25X1A9A

25X1A9A

25X1A9A 1. Reference is made to a discussion on 5 May 1975
between you and [REDACTED], Chief, Physical
Security Division/OS, relative to the classification of
subject document which continues to be a matter of concern.

2. As indicated in the referent, it was previously
determined that declassification of "Where's What" was
not feasible inasmuch as the author had assured contrib-
utors at the Federal Bureau of Investigation and the
Atomic Energy Commission that the confidential nature
of the information which they had provided would be
protected by a security classification of CONFIDENTIAL,
thereby guaranteeing the author's commitment.

3. In an effort to resolve certain doubts relative
to the need for the continued classification of this
document, it is requested that your office contact the
FBI and the appropriate successor organization to the
AEC to determine what portion, if any, of their contri-
bution continues to warrant a security classification.

4. In accordance with your request, forwarded
herewith are two copies of "Where's What" for review
by the above agencies.

Charles W. Kane
